CALVADOS

An apple based spirit from Normandy, which has a chequered history which encompasses brushes with the law, two world wars and regulation.

In the modern day though, Calvados has evolved into a spirit of real quality and accessibility. Partly due to an obsession from the producers with retaining the flavour of the fruit.

This is what we are passionate about..

Chapter 1 Domfrontais Calvados

Hailing from southern Normandy, this region specialises in making Calvados from pears. The difference in raw material, changes a lot the character of the liquid, with brighter, lighter flavours making their way into the spirit.
